

Enya, Song Of The Sandman

Can you hear the night's deep song?
All the shadows say
Telling you when you're asleep,
Tears will fade away

Dream of morning's golden light
When you and I will leave the night ...

And when the moon is high and bright,
Stars will shine on you

Dream of morning's golden light
When you and I will leave the night ...

Make a wish and when
you close your eyes
I will come to you

Dream of morning's golden light
When you and I will leave the night ...

Make a wish and when
you close your eyes
I will come to you
