

Epidemic, Make No Mistake

Something is wrong
I think something is missing
I can't tell what side I am on
If everything is for my fortune
If everything I exploit
Then I've lost my name
Nothing I say
Can get it back for me
All that I trade
All that I gain
Can't buy integrity
Make no mistake
It's hard to avoid
It's easy to go ahead and join
If I've lost my name
Nothing I say
Can get it back for me
Make no mistake
All that I've gained
Can't buy integrity
And what do I want
And what do I need
No reason for what I've become
No escape from what I've become
