

EPMD, Swing Your Own Thing

(pmd)

Word 'em up, check it out

Pmd's in the house

Nine-four, you know the flavor..

Mmm, funk mode

Word 'em up

So whattup whattup? yeah it's time to get down

You ready to chill, so turn up the sounds

Whether it's in your walkman - or your stereo I hope you hear me though

Bobbin that head, jammin to the radio

Cause they're playin your song

The weekend's here, party's on - payday hey

Big up to the dj's who spinnin the jams

Mix shows on friday - cold kickin

It's saturday's, it's hip-hop

Brothers choppin on the one and two

Non-stop.. the violence, and gun shootin

It's time to unite; no time for losin

Or takin steps backwards - that's not the way

Leave the stress at the office, it'll be there monday

But for now it's your time

Time to regroup, get a piece of mind..

.. and disconnect from the madness, called time-out

Take it from the pmd on the rap route

The golden voice, word biz

Live and direct - oop, there it is, time to..

Swing your own thing (word em up)

Swing your own thing (word)

Swing your own thing

Swing your own thing

Well guess who? step aside, it's the squad crew

Airtight, you know the evil that men do

Back for more.. in nine-four

Format's hardcore, steppin through like gigantor

Who is he? pmd

Set for funk mode, it's time to par

Oh yeah back in there, throw your hands up in the air

Wave em side to side, like you just don't care

So fellas yell hoe, and ladies scream out

Don't dwell in the past, live for now

Back on the prowl, thick eyebrows, style's wild

Grab the head, and just..

Swing your own thing (word em up)

Swing your own thing (word)

Swing your own thing

Swing your own thing

So if you're feelin good - let me hear you say real good

Whether you washin your car, cruisin through the neighborhood

Or playin basketball - dunkin on brothers

Coolin witcha sis, respectin your mother

That's the way it should be - family

Not mass hysteria, stress, or poverty

Four hundred years, we almost there

Just look at the tv, we everywhere

Sports lawyers doctors - music

Everyone has a brain - it's time to use it

So grab that head - prepare for the future

Cause that's the only way out
Sway; gotta..

Swing your own thing (word up)
Swing your own thing
Swing your own thing
Swing your own thing

Swing your own thing..
Swing your own thing..
Swing your own thing..
Swing, swing, swing, swing
Swing your own thing..
