

Epoxies, Cross My Heart

don't - don't try to fool me
don't act incredulous
and ask me why
you - you're not so far away
that I can't hear you
when you cry.

don't think that I can't see right through you.
I had you figured from the start.
don't try to run away i heard you.
I won't hurt you baby
cross my heart.

I - I'm not the type of girl
who gives up easily
who runs away
you better get used to it
'cause I'm not leaving you
here to stay

don't think that I can't see right through you.
I had you figured from the start.
don't try to run away i heard you.
I won't hurt you baby
cross my heart.

don't think that I can't see right through you.
I had you figured from the start.
don't try to run away i heard you.
I won't hurt you baby
cross my heart.
I won't hurt you baby
cross my heart.
I won't hurt you baby
cross my heart.
