

Epoxies, Synthesized

See them on the TV screen
Looking back with electric eyes
Razor blades and Vaseline
What I see is synthesized
Photographs in magazines
Will accept no compromise
Radio and nicotine
All of them are synthesized
Synthesized
Synthesized

Every day now more and more
Names and faces obsolete
See them moving on the floor
Always listening to the beat
One by one enter the stream
Every move will synchronize
Dancing like they're in a dream
Everything is synthesized
Synthesized
Synthesized

Fighting hard to catalogue
Sacrifice for the disguise
Disconnecting analogues
Anything to synthesize
Nothing here is what it seems
Nothing can be recognized
Perfect fit for the machine
Everyone is synthesized
Synthesized
Synthesized
Synthesized
Synthesized-- ahhh...
