

Erasure, Freedom

Freedom will come
To real love
Heaven will come
For real love

(Do-Wah Do-Wah Do-Wah)
Run away when it hurts from the things that we do
(Do-Wah Do-Wah Do-Wah)

Don't know why we cry
Run away from the truth
Children of new men
Colors of human kind, in shadow Good is your loving
Growing and sharing storms

Believe
You've got to believe

Calling the day freedom will come
And we will arise to real love
Day by day heaven will come
And we'll survive for real love

Cherish the union, the light in a stranger's eyes
Your guardian angel will make all the wrong things right

Believe
You've got to believe

(Do-Wah Do-Wah Do-Wah)
(Do-Wah Do-Wah Do-Wah)

Calling the day freedom will come And we will arise to real love
Day by day heaven will come
And we'll survive for real love

Calling the day freedom will come
And touch the sky in heaven above
Day by day heaven will come
And we'll survive for real love

Calling the day freedom will come
And touch the sky in heaven above
Day by day heaven will come
And we'll survive for real love

Calling the day freedom will come
And touch the sky in heaven above
Day by day heaven will come
And we'll survive for real love
