Erasure, Freedom

Freedom will come To real love Heaven will come For real love

(Do-Wah Do-Wah) Run away when it hurts from the things that we do (Do-Wah Do-Wah Do-Wah)

Don't know why we cry Run away from the truth Children of new men Colors of human kind, in shadow Good is your loving Growing and sharing storms

Believe You've got to believe

Calling the day freedom will come And we will arise to real love Day by day heaven will come And we'll survive for real love

Cherish the union, the light in a stranger's eyes Your guardian angel will make all the wrong things right

Believe You've got to believe

(Do-Wah Do-Wah Do-Wah) (Do-Wah Do-Wah Do-Wah)

Calling the day freedom will come And we will arise to real love Day by day heaven will come And we'll survive for real love

Calling the day freedom will come And touch the sky in heaven above Day by day heaven will come And we'll survive for real love

Calling the day freedom will come And touch the sky in heaven above Day by day heaven will come And we'll survive for real love

Calling the day freedom will come And touch the sky in heaven above Day by day heaven will come And we'll survive for real love
