-Love Is Colder Than Death- (transcribed by VH)

Love is colder than death they say

So warm your heart to the bone

Hold me closer, don't dear to speak

Cause soon my love, I'll be gone

Cherish the moments with me

Love for all, love for all

All eternity

Golden dance with the moon tonight

The starlight too serenade you

??? the gardens of love

Love for all, love for all

All eternity

Love for all, love for all

All eternity
