

# Erasure, Sono Luminus

I never thought that I would reach you  
Though I've been searching, for oh so many years  
This place I am seems unfamiliar  
But there's a light, to break through all my fears  
still, time &&& time again  
I'm looking for the love  
the one that can inspire

Lift me higher, high as heaven can be (sono luminus)  
Love is here where it always will be, deep inside of us

I'm looking out into the distance  
the sound of thunder is rolling in my head  
the sky is stretching out before me  
thanks for today, everything is blessed

So, here we go again  
we'll be searching for the truth  
until the twelfth of never

Lift me higher, high as heaven can be (sono luminus)  
Love is here where it always will be, deep inside of us

I never thought that I would reach you  
Feels like this road has been going on for miles  
Don't have to write or even see you  
'cause there's a light, burning on the inside

still, time &&& time again  
we're looking for the love  
the one that can inspire

Lift me higher, high as heaven can be  
Our love is super love, fly robin fly  
Wherever you are, saint or sinner be strong (sono luminus)  
Lift me higher, high as heaven can be  
Our love is super love, (burn baby burn)
