

# Eric Benet, Femininity

Oooh what you do to me(yeah yeah)

Quietly your silhouette approaches me  
A vision far too lovely  
to define  
(hey yeah)  
Tenderly you take complete control  
of me  
The feminine seduction of body, soul  
and mind (yeah)

CHORUS:

Touch me and I feel your femininity  
Girl you're the lady women what to be  
Softly you move when you're making  
love to me  
Love me every night with femininity

A child of innocence is how you look  
at me  
But it's the woman's touch that makes it  
feel so right(so right)  
Your lips consume my deepest sensitivity  
It feels so good it makes me wanna cry  
(makes me cry)

CHORUS

Oh, oh ,oh  
Femininity  
Oh, Femininity

Let me feel myself inside you once again  
I love the way you say it's just for me  
A lady in the purest sense of elegance  
but when the lights go down girl you're  
making love, string, wild and free

CHORUS

I like the way you take control of me  
You have a little certain quality  
Not many girls would ever dare to be  
The lady that you are femininity
