

# Eric Benet, While You Were Here

Through this veil of tears  
I can see what was suppose to be  
Now it's all clear  
Love from you was so real, so  
true, genuine  
Stronger than time

CHORUS:

Wipe your tears away  
Kiss you every morning  
hear every word you had to say  
Are all the things i should have done  
While you were heere

And now the foolish boy has grown  
Into this man I'm sorry you've  
never known  
I'm not afraid to love  
'Cause every beat of my heart  
Echoes all those memories from way  
back when  
And the man I should have been

CHORUS

Faded dreams of you and me  
And of our little family  
Gone forever  
My God in heaven  
Before the gift of clarity  
We pay the price of misery  
Why please tell me why

her mommy's gone away  
But in her eyes I see you more each day  
how can I repay  
All your love unreturned  
From so long, long ago  
Now i know

Alternate chorus:

I'll wipe her tear away  
Kiss her every morning  
hear every word she has to say  
Do all the things that you  
Would do if you were here

Brighten her rainy day  
Catch her when she's fallen  
Say I love you each and every day  
Do all the things that you  
Would do if you were here

CHORUS
