

Eric Carmen, Ecstasy

(eric carmen)

When I think of all your lovin', it makes me shiver
'cause when I get home just wait till I get you alone

Ecstasy, when you touch me I'm in ecstasy
No one else could do the thing you do
Let me please you, too, tonight
Ecstasy, when you kiss me I'm in ecstasy
No one else could make me feel this way
Tell me that you'll stay tonight

When you wrap your love around me and move so gently
I feel it begin, don't stop, I can feel my head spinning

Ecstasy, when you touch me I'm in ecstasy
No one else could do the things you do
Let me please you, too, tonight
Ecstasy, when you kiss me I'm in ecstasy
No one else could make me feel this way
Tell me that you'll stay tonight

Baby, baby I just wanna make you feel the way I do
You got my back bone shakin'

And my poor heart breakin' in two

When I think of all your lovin', it makes me shiver
'cause when I get home, just wait till I get you alone

Ecstasy, when you touch me I'm in ecstasy
No one else could do the things you do
Let me please you, too, tonight
Ecstasy, when you kiss me I'm in ecstasy
No one else could make me feel this way
Tell me that you'll stay tonight

When you wrap your love around me and move so gently
I feel it begin, don't stop, I can feel my head spinning

Ecstasy, when you touch me I'm in ecstasy
No one else could do the things you do
Let me please you, too, tonight
Ecstasy, when you kiss me I'm in ecstasy
No one else could make me feel this way
Tell me that you'll stay tonight.

Stay tonight, stay today!
