

# Eric Carmen, Living Without Your Love

(Michael Bolton/Doug James)

Looks like you win  
It's just like you called it from the start  
I let you in  
Now I can't get you out of my heart  
Here I am  
I'm dreamin' about you night and day  
Wanting you  
Needing you  
Hopin' you stay

All of my life  
I thought I knew the taste of sweet  
In my eye  
My life was so complete  
There you were  
That same smile you wear tonight  
Suddenly  
This heart and me  
Can't understand how

I've been living without your love  
Never know how I did it so long  
Living without your love  
All I know is I just can't go on  
Living without your love  
Darlin' I've had more than enough  
Living without your love

Till I found you  
I never knew love could feel like this  
Now that I do  
I wanna make up for what I missed  
Here we are  
What I thought was just a dream  
It's comin' true  
Because of you  
I know what love means

And I've been living without your love  
Never know how I made it so long  
Living without your love  
All I know is I just can't go on  
Living without your love  
Darlin' I've had more than enough  
Of living without your love

All the world couldn't see  
But somehow you knew  
Everything I ever needed  
I'd find it with you

(I've been) I've been living without your love  
Never know how I made it so long  
Living without your love  
All I know is I just can't go on  
Living without your love  
Darlin' I've had more than enough  
Of living without your love
