

Eric Daubney, A Thousand Words

"A Thousand Words"
Eric Daubney
Whatever Turns You On...
2006 SoundCore Records

I'm stuck inside this world
Where everyone's losing their pride
and Everyone can look alright
but something's wrong inside
We're all looking to become
The best that we can be
A thousands words can make us
Want to be what's on tv

When will everybody see
Just be what you want to be
Its not as hard as it may seem
and a thousand words wont stop me now
This is how I'm going down
People trend but what you see is me

and everybody's following
The ones who get their way

but what about the ones who
Are just going their own way
and people are just being judged
By the way that they appear
A thousand words is all it takes
To take away their fears

When will everybody see
Just be what you want to be
Its not as hard as it may seem
and a thousand words wont stop me now
This is how I'm going down
People trend but what you see is me

Those thousand words are all we need
Those thousand words are all we need

When will everybody see
Just be what you want to be
Its not as hard as it may seem
and a thousand words wont stop me now
This is how I'm going down
People trend but what you see is me
