

Eric Dill, End of Me and You

I'd do it all again
If I thought it'd make it better
I would kiss your lips again
If it'd keep us both together
We're faded now, we're coming down
Our time is through, and there's nothing we can do
Cause there's no way out of nowhere
There's no place to hide from the truth
And this time the storm won't blow over
It's the end of me and you
We're apart when we're together
We're strangers whatever we do
We can fight but we can't make it better
It's the end of me and you
I figured we'd both change
But I thought we'd change together
The pain will pass in time, but the loss will last forever
We're faded now, we're coming down
Our time is through, and there's nothing we can do
Cause there's no way out of nowhere
There's no place to hide from the truth
And this time the storm won't blow over
It's the end of me and you
We're a whirlwind whirled together
We're strangers whatever we do
We could fight but we can't make it better
It's the end of me and you
We're getting farther as we grow
Can't hold onto nothing, gotta let you go
There's no way out of nowhere
There's no place to hide from the truth
This time the storm won't blow over
It's the end of me and you
We're a whirlwind whirled together
We're strangers whatever we do
We can fight but we can't make it better
It's the end of me and you
And I'm running out of reasons
I won't waste anymore of your time
And I know that it's my life that I'm leaving
It's the end of me and you
