

Eric Saade, Winning Ground (The Official Song o

Wanna stand on the edge
Wanna feel that I'm here right now
Yeah yeah
Wanna scream from the top of my lungs
Wanna show no doubt
Yeah yeah
I've been down for the count,
I've been tasting the dirt too long
Yeah yeah
Yeah, but you take me high from my low
Now I won't come down down down down down

Calling out for another round
Won't stop now; can you hear the crowd?
We're winning ground
We're winning ground

Calling out, let the love surround
To the stars cause I'm heaven bound
We're winning ground
We're winning ground

Winning /3x
Winning ground
Winning /2x

Put your hands in the air
Be prepared for a brand new day
(New day)
I was left, I was right
Made mistakes, but I found my ways
I've been down for the count,
I've been tasting the dirt too long
(Too long)
Yeah, but you take me high from my low
Now I'm here to stay, to stay

Calling out for another round
Won't stop now; can you hear the crowd?
We're winning ground
We're winning ground

Calling out, let the love surround
To the stars cause I'm heaven bound
We're winning ground
We're winning ground

Winning /3x
Winning ground
Winning /2x

Look at the stars, let's get together /8x

Calling out for another round
Won't stop now; can you hear the crowd?
We're winning ground
We're winning ground

Calling out, let the love surround
To the stars cause I'm heaven bound
We're winning ground
We're winning ground

I'm calling now

To the stars
Calling down for another round
We're winning ground
