

# Erik Segerstedt, When I Hear You Say My Name

Every day was just another day  
Sun up sun down the same old same  
What was I doing it for?  
Now I've got so much more  
I feel it when you say my name  
Baby I just got to let you know  
What I'm feeling inside I can't deny  
Now there ain't no doubt about it  
This is real and I wanna shout it  
It's a miracle inside of me  
When I hear you say my name  
All the lights come on  
And the music starts to play  
I can't help but sing along  
Liek a flower to the flame  
I'm burning in your arms  
When the world is cold and grey  
You know it makes me strong  
When I hear you say my name  
Tell me is there anything you need  
Me, I got everything in you  
You're more than beautiful  
Love can be true after all  
And I know I'll always find my way  
When I hear you say my name  
All the ligths come on  
And the music starts to play  
I can't help but sing along  
Like a flower to the flame  
I'm burning in your arms  
When the world seems cold and grey  
It makes me strong  
When I hear you say my name  
I just know that I want to  
Let go and when I'm by your side  
Everyday is an easy ride  
And all I wanna say  
I would go out of my way  
to hear you talk to me  
and whisper baby please  
When I hear you say my name  
All the lights come on  
When the world seems cold and grey  
When I hear you say my name  
When I hear you say my name  
All the lights come on  
And the music starts to play  
I can't help but sing along  
Liek a flower to the flame  
I'm burning in your arms  
When the world is cold and grey  
You know it makes me strong  
When I hear you say my name  
When I hear you say my name  
All the lights come on  
And the music starts to play  
I can't help but sing along  
Liek a flower to the flame  
I'm burning in your arms  
When the world is cold and grey  
You know it makes me strong  
When I hear you say my name
