

# Ernest Tubb, Kind Of Love She Gave To Me

A lonely town a lonely street a lonely room where I can't sleep  
She's on my mind I think about her endlessly  
He bought her big blue diamond rings a car and other costly things  
But can't he buy the kind of love she gave to me  
The kind of love she gave to me gave it so unselfishly  
We planned a home all of our own now that can't be  
He'll buy her furs and silk and gowns she never had in Shantytown  
But can't he buy the kind of love she gave to me  
[ steel ]  
She's from across the track you know where the bright lights never glow  
In Shantytown we live and love so differently  
She'll have her mansion on the hill but when that house is cold and still  
Can't he buy the kind of love she gave to me  
The kind of love she gave to me...
