

Ernest Tubb, Last Night I Dreamed

I had a dream last night I dreamed you held me tight
You filled me with delight so real it seemed
I thought you kissed me too it thrilled me through and through
Just being there with you last night I dreamed
And then there came the dawning when I awoke you were gone
I can't forget you my darling my love for you still lingers on
So please come on home although you were wrong
I just can't go on last night I dreamed
[steel]
And then there came the dawning...
