Erykah Badu, 4 Leaf Clover

"4 Leaf Clover"

Buzilla baby

Catch a four leaf clover Maybe we'll get over Try and love might come your way

Here I am, on a cloud If you want me take the chance try love out loud As I drift through the sky Shooting cupid's arrow you just might try So don't miss baby, take your time You only got one chance, yes

[1] - Catch a four leaf clover
Maybe we'll get over
Catch a four leaf clover
Love my getcha over
Catch a four leaf clover
Maybe we'll get over
Try and love might come your way

Like the way I am free Going places, being things I wanna be Settle down, is oh so hard But I will pray you that one chance So pick the one right one And don't miss it, take your time You only got one chance, do wee ooh wee ooh

[Repeat 1]

Free as a bird, yeah, yeah To catch me is to catch a leprechaun Hold on to your rabbit's foot I just might be yours forever

[Repeat 1]

Catch a four leaf clover (Catch a four leaf clover) Catch a four leaf clover Love might getcha over Catch a four leaf clover (Catch a four leaf clover) Try and love might come your way Maybe we'll get over (repeat til end of song)
