

Escanaba Firing Line, Terra Incognito

I got a new deception its for you and me.
It will make us happy though we could never be.
It was made through movement but you wont notice a thing.
Just take this new drug no more suffering.

Roll over
Roll over with me

I've got a new idea it's something you can't see.
It lives in the air (now) it's something you could breathe.
But you would never notice it's all to easy.
Just listen to yourself listen to yourself breathe.

I've got a new addiction breathe life into me.
I need this more than you... more than you need me.
Put on a brand new mask now something for you to see.
I left you far behind back there with me.
