

# Eskimo Joe, Smoke

If I keep smoking this cold will never go away  
If I keep talking I know you'll never come and stay

Stand the two up next to the other  
Don't feel strange to be my lover

All I got here is books and music  
I used to have exercise but I outgrew it

Going home and you go silent  
Like I know what to do just say it's cool  
But I feel ok

I feel cold next to the fire  
It's an old story but I think I like it

All I got here is books and music  
I used to have exercise but I outgrew it

I see her going home and you go silent  
Like I know what to do just say it's cool  
But I feel ok

I feel cold next to the fire  
It's an old story but I think I like it  
Spend your days in indecision  
I got a lot of things on my mind this morning

Going home and you go silent  
Like I know what to do just say it's cool  
I feel ok

I feel cold next to the fire  
It's an old story but I think I like it  
Spend your days in indecision  
I got a lot of things on my mind this morning
