

Eskobar, It Almost Happend To Me

Watch the trash, and you accept the trash, and you become it

I was begging please come and save me from me
I was falling free 'cause the outside world really got to me
I had to find somewhere to hide

It almost happened to me
But the blue notes set me free
It almost happened to me
But the blue sky showed me endlessly

I pulled the plug so that my eyes won't use the drug
All the pictures and sounds created just to break me down
I had to find somewhere to hide
The only way was going inside

It almost happened to me
But the blue notes set me free
It almost happened to me
But the blue sky showed me endlessly
