

Eskobar, On My Side

If you can't stand to fall
You should not stand at all
If you can't be small
You should not be at all
Why always try
To be the sun up in the sky
If you are strong
Show me your weak sometime

If you can't stand to fall
You should not stand at all
If you can't be small
You should not be at all
Why always try
To be the sun up in the sky
If you are strong
Show me your weak sometime

On my side you and me girl
Close your eyes
Rest your soul
Don't tell me where
I want follow you
Into the night
Then you're gone

If you can't stand tall
you should not stand at all
If you can't be small
you should not be at all
Why always try
To be the sun up in the sky
If you are strong
Show me your weak sometime

On my side you and me girl
Close your eyes
Rest your soul
Don't tell me where
I want follow you
Into the night
Then you're gone
