

Eskobar, On The Ground

When you see a man, let him be what he's gotta be
One time is all that he needs
I know for all, you got to believe in love

When you see a man, let him be what he's gotta be
One time is all that he needs
I know for all, you got to believe in love

Sky above water, they're always the same
Sons and daughters, they're always the same

Always the same

And I never found you on the ground
I never made a sound
'Cause you were much too busy being free
No time to be with me

When you see a man, let him be what he's gotta be
One time is all that he needs
I know for all, you got to believe in love

When you see a man, let him be what he's gotta be
One time is all that he needs
I know for all, you got to believe in love

When you see a man, let him be what he's gotta be
One time is all that he needs
I know for all, you got to believe in love

And I never found you on the ground
I never made a sound
'Cause you were much too busy being free
No time to be with me

Hold on to posture and strangers
Hold on to posture and pride

And I never found you on the ground
I never made a sound
'Cause you were much too busy being free
No time to be with me

And I never found you on the ground
I never made a sound
'Cause you were much too busy being free
No time to be with me
