

Eskobar, Sell Out

they say please
give me something to hate
she says please
give me something to relate to

the queen is dead
no longer a head
no longer the one
to carry on

just another sell out they say
but do they know
just another victim she was
heard it on the radio

they say please
give me something to hate
she says please
give me something to relate to

the queen is dead
no longer a head
no longer the one
to carry on

just another sell out they say
but do they know
just another victim she was
heard it on the radio

and many, many times we survived
we are soulsurvivors

just another sell out they say
but do they know
just another victim she was
heard it on the radio

we are soulsurvivors
