

Eternal, It's Never Too Late (Interlude)

It's never too late
It's never too late

It's never too late
The Lord will see you through
Just call on his name
And his strength and love will guide you
Just open up your heart
And he will turn your life around
He's able, able to guide you, need you
Just open up your heart
And invite him to come in
Just believe in him
And know that it's never too late
It's never too late
