

# Europe, Settle For Love

Don't misunderstand me I was just a little kid  
Thinking that the street life was the only way to live  
Always holding out for another thrill

We've come a long long way  
So tell me why can't we settle for love  
Is it that hard at the end of the day  
Tell me why can't we settle for love before it's too late

Whatever it is you think you're missing  
Time to let your heart go  
Cause when you've walked this kind of distance  
We can't fool each other anymore  
Maybe there is a light that won't go out

We've come a long long way  
So tell me why can't we settle for love  
Is it that hard at the end of the day  
Tell me why can't we settle for love before it's too late
