Europe, Settle For Love

Don't misunderstand me I was just a little kid Thinking that the street life was the only way to live Always holding out for another thrill

We've come a long long way So tell me why can't we settle for love Is it that hard at the end of the day Tell me why can't we settle for love before it's too late

Whatever it is you think you're missing Time to let your heart go Cause when you've walked this kind of distance We can't fool each other anymore Maybe there is a light that won't go out

We've come a long long way So tell me why can't we settle for love Is it that hard at the end of the day Tell me why can't we settle for love before it's too late
