

Europe, Stormwind

I like to sit beside the fire when the light is going down
I like to hear the wild wind blow outside my door
I have so much left to remember
I have so much left to forget
And I know I dont have to search for more
But you want to change my world
Stay out of my life
Stormwind youre just like a wind
Comin to drag me away
Stormwind what ca I say
I just dont want you to stay
I like to walk around in dreams at night
And play with kings and queens til the morning light
I like to wake up in the morning unaware
Of the fact that you are calling me to ask me if I want to be
Someone who you could love and always care for
but you want to change my world
Stay out of my life
Stormwind youre just like a wind
Comin to drag me away
Stormwind what ca I say
I just dont want you to stay
