

Europe, Sweet Love Child

She stands in the doorway
In the pale moon shine
When she looks at me, every part of me,
Brings my soul back to life

Eyes like a rainbow
They cut right through
Oh I'm lost in time
All through my mind
I'm in love what can I do

Sweet love child...

I shiver, I shiver and shake
It's been a long, long time
When she touches me, every part of me
Just comes back alive

She rides like the wind
On a summers night
And she gives and takes
In the love she makes
Sweet Love Child

She makes everything so right

My sweet love child...

By the light of the morning
Like an angel's sigh
I can feel her breath
Lying next to me
With the world locked outside

I can feel
A taste so sweet
And she gives me love
All the precious love
It makes my life so complete

So sweet
