Eurythmics, Cool Blue

Blue - the colour suits you Cool blue How will you stay this way for ever? Blue again It's a lasting chill To keep you cold as winter

How can I forget you? I'm never gonna give you up How can I forget you baby? I'm never gonna give you up

Here it comes again Here it comes again

Blue - the colour fools you Cool blue I'll never stay this way for ever Blue again

(How could she fall for a boy like that)
