

# Eurythmics, Keep Young And Beautiful

What's cute about little cutie  
It's her beauty, not brains  
Old father time will never harm you  
If your charm still remains  
After you grow old, baby

Keep young and beautiful  
It's your duty to be beautiful  
Keep young and beautiful  
If you want to be loved

\*If you're wise exercise all the fat off  
Take it off, off of here, off of there  
When you'er seen anywhere  
With you hat off  
Wear a marcel wave in your hair

Take care of all those charms  
And you'll always be in someone's arms  
Keep young and beautiful  
If you want to be loved

(\*Repeat)

Keep young and beautiful  
It's your duty to be beautiful  
Keep young and beautiful  
If you want to be loved

Keep young and beautiful  
If you want to be loved  
Boopie doo, ah
