

Eurythmics, Keep Young And Beautiful

What's cute about little cutie
It's her beauty, not brains
Old father time will never harm you
If your charm still remains
After you grow old, baby

Keep young and beautiful
It's your duty to be beautiful
Keep young and beautiful
If you want to be loved

*If you're wise exercise all the fat off
Take it off, off of here, off of there
When you'er seen anywhere
With you hat off
Wear a marcel wave in your hair

Take care of all those charms
And you'll always be in someone's arms
Keep young and beautiful
If you want to be loved

(*Repeat)

Keep young and beautiful
It's your duty to be beautiful
Keep young and beautiful
If you want to be loved

Keep young and beautiful
If you want to be loved
Boopie doo, ah
