

Evanescence, Lies (Remix)

Bind my limbs with fear
Choke me with tears
I won't die for you

You've been here before
And come back for more
But not this time

You will never be strong enough
You will never be good enough
You were never conceived in love
You will not rise above

Somebody tell me what made us all believe you
I should have known all along it was all a lie
I should have known it was all a lie

Now I know the truth
I'm through fearing you
And I am free

You will never be strong enough
You will never be good enough
You were never conceived in love
You will not rise above

Somebody tell me what made us all believe you
I should have known all along it was all a lie
I should have known it was all a lie

Somebody tell me what made us all believe you
I should have known all along it was all a lie

Somebody tell me what made us all believe you
I should have known it was all a lie
I should have known it was all a lie
