## Evanescence, Sick

Embrace the silence
'Cause there's nothing
That can change the way I feel
Taken all that you wanted
Now there's nothing
That can change the way I feel

Hold on, little girl The end is soon to come

Sick of it all
Sick of it all
We will not follow
Sick of it all
Sick of it all
They don't understand how
Sick we are
Sick we are
Of this bottomless
Pit of lies
Behind closed eyes

Oceans between us And there's nothing That can change the way I feel I can still taste the poison Of every thought, Every breath I wasted here.

Hold on, little girl The end is soon to come

Sick of it all
Sick of it all
We will not follow
Sick of it all
Sick of it all
They don't understand how
Sick we are
Sick we are
Of this bottomless
Pit of lies
Behind closed eyes

Someday you'll know the pain Someday the light will break through And nothing you tell yourself Will save us from the truth

Screaming out!
Sick of it all
Sick of it all
We will not follow
Sick of it all
Sick of it all
They don't understand how
Sick we are
Sick we are
Of this bottomless
Pit of lies
Behind closed eyes
