

# Eve, Dog match

Ugh! (Whoa) Ugh!(Woo!) Ugh! Ugh! (Arf! Arf! Arf!)

Ugh! Ugh! Ugh!

Now for every real dog

There's that bitch that's behind him

That bitch that when that nigga get to missin'

She gon' find him

Old girl gonna stay with the dog

Hand in hand with the dog

And whatever the fuck went down she ran with the dog

First time I had a match and didn't scratch

You catch just loss half you niggas, but the punk can fetch

And I know my babygirl is gonna stretch

Any rappin' motherfucker, male or female

Place your bets

You can imagine what the bloodline is like

Since I love mine to fight

I'm on some shit like what time tonight

Y'all niggaz can't be for real

Cause any one of you faggots

Will catch a face full of lead

Bitch you shouldn't be faggots

Fuckin' maggots, once you have it, as good as I got it

I know my hands is in my pockets

But Eve got you spotted, red dotted

Eve didn't before the Dog

Nothin' but a war with tha bark

[Eve]

Always been the bitch that could roll with a thug and

Wipe up the blood

Roll in the mud with your other ducks nigga what?

What you need when the chips is down

I'll abide on the stand when evidence is found

I give pound to ya niggaz they respect this bitch

I spit rounds at your enemy no less than six

Always keep the extra clip Dog taught me well

The extra eyes on your team I see who's next to fail

Always hold your back up, I picked it up when you slack up

And if attention gets to close I tell the world to back up

Biting two time, rhymes who ride?

Bitch and your livin' lessons through life

Fuckin' with the dog he's a master

Plus he's gonna show me how to blast ya

Want attention then pass ya

Split you then stash you

The game is real, E-V-E, DMX, the name's for real, uh

1 - [DMX]

Fuckin' with the dog man niggaz keep beefin'

Eve will hold it down now, niggaz can believe (Woo!)

Quick as niggaz come and quick as they'll be leavin' (Ugh!)

Paramedics on your chest, pushin' and breathin'

Repeat 1

[DMX]

Get em girl, ha-ha, that's my baby

I'mma put the bitch down, cause the boy got rabies

All my pups is crazy, cause off the leash

They can eat, stand and match defeat, out of the least

And if the beast is in the big one

The beast is in the little ones

Talkin' 'bout let's hit him son

Fuckin' with the little guns

Y'all niggaz had a little run

What more do you want?

For your fans you can front

But the dog is on the hunt

[Eve]  
You know I'm at the door point fox rippin' 'em out  
And you're the only one that can tame me  
When I'm flippin em out  
Bite's lethal, no recovering  
I spitz no other than acid  
Up against the top contenders  
None of them lasted  
This bitch gon always hold you down  
Keep the cowards thinking twice  
I keeps it gritty nigga  
Never think that love is life  
Turnin' my back is something cats would do  
I never take flight  
Cause any breed he put's me up against  
This bitch is gonna bite  
Repeat 1 (4x)
