

# Even Stevens, Hey Love

Hey love how do you do  
This is another day I'll spend without you  
I wake up just to fall asleep  
How many tears must an aching heart weep

(Chorus)

Right now you seem so far away  
Please love, come back to me someday

There's no cop with no thief  
With no you there's no me  
Please can we have some fun  
We'll sit and watch the setting sun  
And if you must go I'll let you be  
Just promise that you'll always stay happy

Chorus
