

# Everlife, Everyday Is Christmas

Everyday is Christmas  
Everyday is Christmas

The count down is starting  
It's getting closer  
Snow is falling  
It's getting colder  
Everyday that's passing its making my hope grow stronger

All of friends said that they saw you at my favorite store  
Just so you know being with you would mean so much more  
Every moment together doesn't seem long enough  
I'll remember these other times to celebrate  
So come with me this holiday

Let the bells ring let the choir sing  
I wanna hear the sound  
Somewhere out there there's something we share  
It's where our love is found  
So if you can't be with me now I know that if we sing somehow we'll be together  
Wishing that everyday was like Christmas

Everyday was Christmas  
Everyday was Christmas

Everyone's busy walking around inside crowded malls  
It's only a guess but did you get my list at all  
Put all my favorite things taking it back 'cause all I want is you  
The greatest Christmas gift is bringing us bringing us together

Let the bells ring let the choir sing  
I wanna hear the sound  
Somewhere out there there's something we share  
It's where our love is found  
So if you cant be with me now I know that if we sing somehow we'll be together  
Wishing that everyday was like Christmas

I never ever wanna miss you this much  
Oh yeah  
But I know that our hearts will be together eternally

Let the bells ring let the choir sing  
I wanna hear the sound  
Somewhere out there there's something we share  
It's where our love is found  
So if you cant be with me now I know that if we sing somehow we'll be together  
Wishing that everyday was like  
Everyday was like  
Everyday was like Christmas  
Everyday was Christmas  
Everyday was Christmas  
Everyday was Christmas  
Everyday was Christmas  
Everyday was Christmas
