

# Evermore, The Only One I See

Grace  
Despite your years  
I hope you find  
Peace  
Despite your fears  
I hope you find  
Love  
Through all your years  
I hope you find  
Joy  
Despite your tears

Love you dearly  
I do  
Love you dearly  
That I do

And the strong may take  
Advantage of the weak  
And your love entangles us  
In our sleep  
Like the dirt beneath our toes  
And our feet  
Black and white the only colors that we see

You're the only one I see  
You're the only one I see  
And when I found you  
I found me  
Cos I'm the door  
And you're the key  
You're the only one I see  
When I found you  
I found me  
I found it all  
Yeah  
I found you  
When I found me  
I found you  
I found me  
Take this all away from me
