

# Excellence, Never Say Never

You've been through a lot of disappointment  
You've been through a lot of bitter tears  
And, believe me, I can understand it  
When you tell me you don't wanna care  
And you won't go through that again

Something's telling me we're on to something  
Something's telling me it's real and good  
And I think we'd be the fools to fight it  
I don't even really think we could  
Don't tell me you won't fall again

Never say no, never never say never  
You and I will make it together  
Gonna see that you and me are meant to be  
Never say no, never never say never  
I made up my mind and I won't give up 'til you see  
Never say never to me

Well, it's easier to just deny it  
Than walk away from what we found  
Baby, what a shame to lose the feeling that we're feeling now  
Don't tell me I've come this far just to hear you say  
We can't be more than friends

Never say no, never never say never  
You and I will make it together  
Gonna see that you and me are meant to be  
Never say no, never never say never  
I made up my mind and I won't give up 'til you see  
Never say never to me

Open up your eyes  
You might be surprised  
Far but not so far apart  
Baby, don't you stop before we start

Never say no, never never say never  
You and I will make it together  
Gonna see that you and me are meant to be  
Never say no, never never say never  
I made up my mind and I won't give up 'til you see  
Never say never to me

No, you can't fight destiny  
Some things are just meant to be  
Real love is, oh, so hard to find, yeah, yeah  
Don't think too much about this  
Just follow your heart to where mine is  
To where mine is

Never say no, never never say never  
You and I will make it together  
Gonna see that you and me are meant to be  
Never say no, never never say never  
I made up my mind and I won't give up 'til you see  
Never say never to me

No, you can't fight destiny  
Some things are just meant to be  
No, you can't fight destiny
