

# Exciter, Shadow of the Cross

Children of tomorrow  
You're living a lie  
Victims of their final words  
Do or die  
You must decide what you believe  
Is it God above?  
Sinners say your prayers  
Save us

In the shadow of the cross  
Just another life is lost  
In the shadow of the cross  
Good and evil lines get crossed

Take a step to the south  
As far as you dare to go  
The demon lies within us all  
But do we really know  
This dark and lonely dying world  
Makes me cry  
Just remember who's in the cross  
Crucified!

In the shadow of the cross  
Just another life is lost  
In the shadow of the cross  
Good and evil lines get crossed

Children of tomorrow must not be deceived  
If there is good, good to be done  
How can they believe  
We're fighting, killing  
Evil is willing to lead them astray  
The hatred, anger, live in the dangers  
Its fucked-up world today just remember

Shadow, shadow, shadow of the  
Shadow, shadow, shadow of the cross
