

Exhorder, Year Of The Goat

Threaten me with good times
And you'll see who's the swine
I'd much rather work things in than work things out

Struck down hard and in love
Taken back and abandoned, disposed
At what point did you hear me say I'm yours?

It's better to lose a friend
Than to feed an enemy again
In the year of the goat
I'm a fucking ram
Don't fool yourself with a dream
You're nightmare's my domain

It's the year of the goat

I've been kissed by the gods
'Cause I'm their favorite child
Bless your heart, someone needs to haul the trash

Chance the lucky 13
Life is good when you sip the cream
Test your skills and the blessings will rub off

It's better to lose a friend
Than to feed an enemy again
In the year of the goat
I'm a fucking ram
Don't fool yourself with a dream
You're nightmare's my domain

It's the year of the goat
It's the year of the goat

Threaten me with good times
And you'll see who's the swine
I'd much rather work things in than work things out

Struck down hard and in love
Taken back and abandoned, disposed
At what point did you hear me say I'm yours?

It's the year of the goat
It's the year of the goat
The goat
