

Exilia, Baby Doll

Don't wanna be a woman
To dress me up in furs
Don't wanna be a woman
That looks at you and purrs
Ain't no doctor for this sickness?
What I need is more, not less
Going over the edge

What I want is what I want is
Call me honey, got me sugar

Babydoll, get the door slammed right in your face
Babydoll, don't wanna marry I just wanna love you
Babydoll, gotta be me gotta be free, yeh
Babydoll, you're not playing me it's me that's playing you

Don't wanna be a woman
Just to get my bread and butter
Don't wanna be a woman
Little wifie loving mother
Don't wanna be the one to stay
The one you leave at home
When you go out to play

What I want is what I want is
Call me honey, got me sugar

Babydoll, hear me say right in your face
Babydoll, don't wanna marry I just wanna love you
Babydoll, gotta be me gotta be free, yeh
Babydoll, you're not screwing me it's me that's screwing you

What I want is what I want is

Babydoll, get the door slammed right in your face
Babydoll, don't wanna marry I just wanna love you
Babydoll, gotta be me gotta be free, yeh
Babydoll, you're not playing me it's me that's playing you

Babydoll, get the door slammed right in your face
Babydoll, don't wanna marry I just wanna love you
Babydoll, gotta be me gotta be free, yeh
Babydoll, you're not screwing me it's me that's screwing you
