

# Exit, Shine

I saw you standing tall  
So brave above it all  
But I did not hear one  
Word you said

Then someone pulled me down  
And my feet fell underground  
And guilt was all that  
I could feel

(chorus)

And the problems I face everyday  
Were just looked upon and thrown away  
And I hope and pray, that they find a way  
To make this go away

(end chorus)

You're so young and full of life  
And through the darkness you see light  
And you're so much stronger  
Than I know I'll ever be

Your pain that no one sees  
From your invisible disease  
Still you shine bright as any  
Star I've ever seen

(chorus)

(bridge)

I believe that when you smile  
You heal the world for just a while

(chorus 2x)
