

# Exit, Without You

Last night I closed my eyes  
Just one more day gone by  
I dreamed I saw your face  
In some familiar place

(BRIDGE)

And you didn't need  
Anyone but me  
And it was a dream  
But it felt real to me

(CHORUS)

And I could hold you  
Like I used to  
And I could touch you  
Like I'm supposed to  
And love was more than just  
Another game for you to play  
And I could tell you  
The things I want to  
And you were with me  
Because you really were in love  
But then I woke up again today  
Without you

(END CHORUS)

The days go by so slow  
And you're over me I know  
So I'll close my eyes to see  
How good it used to be

(BRIDGE)

When you didn't need  
Anyone but me  
And everything was more  
Than just a dream

(CHORUS)

(SOLO)
