

# EXO, CALL ME BABY

This street is completely crazy  
Strangers in between people  
Every moment that we're together like "Boom, boom, boom, boom, boom!"  
What's up?

Hey girl, that one moment felt like eternity (the fate-like moment)  
When you pierced into me in just one moment (like lightning, in this world)  
You called my name and came to me

It's amazing, like a flash of light, you fill me up the moment I see you, oh my  
Sit here comfortably and listen to my story now  
I don't care, even if I have to go far  
I'll be the one man to be by your side

You seeped into my dry lips and woke me up  
The time's wasting girl  
So don't wait, don't wait too long

There are many who shine but look at what's real among them  
Call me baby, /4x  
You know my name girl

My heart grows bigger for you and it closes its door for everyone else but you  
You know I'm here girl  
Call me baby /4x  
Even if it's many times,  
Call me girl

You make me exist as myself, you're the only one in my world  
You're the one, You're the one  
Girl you're the one I want

There are many who shine but look at what's real among them  
Call me baby /4x  
You know my name girl

Even if it's many times,  
Call me girl

Baby girl, even among all the greed and all the words  
You showed that you believe in me  
Even if everyone changes and leaves me, you are my lady  
All I need is for you to hold my hand

There are many who shine but look at what's real among them  
Call me baby /4x  
You know my name girl

My heart grows bigger for you and it closes its door for everyone else but you  
You know I'm here girl  
Call me baby /4x  
Even if it's many times, Call me girl

I was once trapped in a dark maze in the darkness  
But I hear your voice that woke me up  
You made me be born again, yeah

EXO, listen!  
Say my name (Louder!)  
If you become my light and pull me through this chaotic place (what up)  
I'll hold you and never change, I'll hold you and face those who left me  
Never don't mind about a thing  
You came into the big emptiness in my heart

In this shaking world (wow, babe!)  
You were the only one who became my light  
Girl you're the one I want  
(You're the one I want)

There are many who shine but look at what's real among them  
Call me baby /4x  
You know my name, girl

I'll be your baby!  
You make me exist as myself  
You know I'm here girl  
You're the only one in my world /2x  
Girl you're the one I want  
You're the one that I want

There are many who shine but look at what's real among them  
Call me baby /4x  
You know my name, girl

Even if it's many times,  
Call me girl
