

# Exodus [Thrash Metal], Chemi-kill

Politicians, they're all on the take  
Toxic polluters, leave cancer in their wake  
Campaign contributions are nothing more bribes  
Pockets growing, fatter at the expense of all our lives  
Now we'll grab them by their white collar  
And throw them in the waste  
Look at them floating in the cess  
They're such a fucking disgrace!  
They just want  
To make another buck  
They couldn't care what happens  
They wouldn't give a fuck  
Their big house way up on a hill  
Was paid for in death  
It's chemi-kill!  
They don't know what to do with it  
They don't want to keep it around  
So they pull up behind my back door  
And bury it underground  
We scream and yell but they just laugh  
On the way to make a withdrawal  
But we've got to ram it down their throats  
Make them eat it all  
Now we'll grab them by their white collar  
And throw them in the waste  
Look at them floating in the cess  
They're such a fucking disgrace!  
They just want  
To make another buck  
They couldn't care what happens  
They wouldn't give a fuck  
Their big house way up on a hill  
Was paid for in death  
It's chemi-kill!  
Babies are lying in their womb  
Dying in their private tomb  
Born retarded, crippled and lame  
But they say they're not to blame  
Tumors are growing in my spleen  
The children are turning green  
We're dropping one by one  
Is this the end of all our fun?  
How can they get  
Away with this?  
We take them to court  
But it gets dismissed  
They've bought off the judge  
So he throws out the case  
Then goes the human race!
