

# Exodus [Thrash Metal], Thrash under pressure

We do what we do 'cause we fucking want to  
Never give a shit what others say to you  
They try to give advice just to find we're cold as ice  
Worthless opinions need not be spoken twice  
We're proud of what we do, call us Trash we won't argue  
We'll never be ashamed if our children ever knew  
Forever we'll confirm and we're flattered by the term  
Those embarrassed by it never should have tried it!  
With my head held high  
Standing dignified  
I have my integrity  
Never gave an inch  
And I never flinch  
When it came to my loyalty  
100% all out nothing less  
Aggressive, relentless and mean  
When the chips are down  
You'll never see us frown  
You'll only see  
Trash Under Pressure!  
Heavy fuckin' sound , pound your head into the ground  
Where others try and fail, we're glory bound  
It's what we love to hear, we've done it for so many years  
Rolling into town and blowing out your ears  
Parents are against, they try and keep their children  
Fenced in from the world and the evil influence  
Like birds of a feather we'll always flock together  
We want you to know we'll always thrash forever!
