

Exploited, Blown Out Of The Sky

Tell us the truth
We've got a right to know
Forty minutes into the air
Then came the final blow!

Blown out of the sky!

270 victims on flight 103
A year has passed already
And they still withheld the facts from me

Blown out of the sky!

They knew two weeks before
That atrocity was planned
But all the people at the embassy did
Was change their own flight plans

Blown out of the sky!

31,000 feet
relaxing with a drink
How were they meant to know
That death was nearly theirs?!
A bomb was planted in the cargo hold
Put on by a person unknown
But the government will not admit
That they know two months before!

Blown out of the sky!
